HONGKONG, FEBRUARY 14th, 1888.

Br. dist. of pegging away, aided by one or

two war wares, the importance of efficiently

fortifying the coaling stations has at length

been brought home to the British Govern-

ment. In the Queen's Speech at the open-

ing of Parliament, a summary of which has

been forwarded by Reuters, we are told that

provision will be made in the Estimates for

the defence of the coaling stations. As our

readers are aware, the fortifications in the

various coaling stations, Hongkong, Singa-

pore, Ceylon, Mauritius, Aden, &c., have for

some years now been under construction,

mainly at the cost of the different colonies.

The Imperial Government agreeing to pro-

vide the armament, and presumably the men

to work the guns. The fortifications in some

of the coaling stations have been practically

completed, and in a few cases part of the

guns have been sent out, while others are

in course of despatch. Hongkong has not

received her guns yet, but we be-

lieve they have been despatched, and in

any case have not to be provided for.

What is meant by the allusion in the Royal

Speech to the defence of the coaling stations

is not perfectly clear. It may possibly be

intended that some further provision is to be

fortified; another station, for instance, in

South Africa, and perhaps that great future

port and arsenal Port Darwin. Or it may

mean, and the address of Lord Brassey in

the London Chamber of Commerce seem to

bear out the supposition, that the increase

of the various garrisons is referred to. Ports

and guns without troops to man them are of

very little use, a fact that must be obvious

even to the greatest novice in military matters.

The necessity of augmenting the garrisons

has evidently been forced on the mind of

Lord Brassey, for he suggests the forma-

tion of local batteries of artillery at Colombo

and Singapore. This plan has been proposed

before, and took shape at one time in the

formation of the Ceylon Rifles, which, how-

ever, were, probably for reasons of economy,

soon disbanded. In Singapore a Malay rifle

regiment might easily be formed, and in

Ceylon a native regiment could also be raised

without difficulty. It is noticeable that

Lord Brassey makes no recommendation of

the kind with regard to Hongkong, for ob-

There was a good turn out of Volunteers for

the shooting competition at St. Andrew's Island

yesterday. We defer our account until the

scores have been made up.

Attention is directed to the alteration in the

hour of the departure of the O. & O. steamer

Oceanic on the 22nd instant, from three o'clock

in the afternoon, to five o'clock, and the

revenue of the colony for the quarter

ended 31st December last amounted to \$335,572.

however, be enlisted in India for service here,

or, if that be impracticable, one of the West

disbanding, might be sent here. India is,

however, much nearer to Hongkong, and is

its natural recruiting ground. The sensible

THE AMERICAN MAIL.

The O. & C. steamer *Oceanic*, with the mail of the 11th inst., arrived here on Saturday morning. The subjoined telegrams are taken from our San Francisco files:

THE COINAGE OF SILVER IN THE UNITED STATES.

WASHINGTON, 6th January. Representative Woodburn of Nevada, introduced a bill in the House on Monday, to amend the silver coinage law. As the law exists it provides for the coinage of not less than two million nor more than four million of standard silver dollars monthly. Woodburn's bill fixes the minimum of coinage at four million per month. During the past year the Government coined thirty-four million standard silver dollars. For the first time since the passage of the act, the minimum of coinage allowed was exceeded, and by two million. Mr. Woodburn says, if his proposition were adopted, it will absorb in coinage the entire silver production of the country, and only exceed by fourteen million what was coined this year.

TWO CHINESE ADMITTED INTO THE CHURCH.

New York, 5th January. Two Chinese, Nam Lee and Phil Wang, were formally baptized and admitted to the church on Sunday at the Episcopal Church, Methodist Episcopal Church in Brooklyn today. They are believed to be the first Mongolians ever received in the church of this faith in America.

CHINESE LUNDRYMEN AND CHINESE MERCHANTS.

Representative Thompson has obtained from the Treasury Department a promise that it will recommend the imposition of two and a half cents per pound on raw cotton, and the same as paid upon imported starch, for laundry purposes. The Chinese laundrymen have been saving about \$60,000 per annum by the duty-free importation from China, which pays no duty, and covers every purpose of starch, that costs the American laundryman two and a half cents per pound duty in addition to the price of the article abroad. When the tariff bill is passed by the Ways and Means Committee, Mr. Thompson believes this increase in duty will be recommended to the House by the committee.

A CORNER IN COPPER.

A gentleman, representative of the Post, is reported to be saying that the story that an agent of the French copper ring is trying to induce the Spanish Government to allow the export of the output of copper for four years is probably true. Some time ago a syndicate tried to form a combination of the Rio Tinto, Mazon & Berry and other companies to limit the production of copper. The Spanish Government, however, refused to allow the export of copper for four years. The syndicate was willing to go in, but the Catalan and Rio Tinto were so dissatisfied with the terms that they refused to join the combination with the three great Spanish mines and help to keep down production during the next two or three years. It is known that the latter are ready and will be satisfied if the Catalan joins them.

THE C.R. AND THE PROPOSED ATLANTIC MINERS.

It is officially announced that the Dominion Government is about to issue a bill to prohibit of Premier Macdonald to provide a fast line of ocean steamers to cross the Atlantic in connection with the Canadian Pacific Railway. This will abolish the existing subsidies and facilities for the Canadian mail service, and that by this plan travellers and mails leaving Liverpool will be in Chicago by the time the New York papers are being landed. The Government will pay for the service of the Atlantic line, will pay on the Atlantic line 7,000,000 francs, and on the Pacific line 1,000,000 francs. They will have a maximum speed of 12 knots, and will have accommodations for light and portable passengers. It is estimated that the establishment of this service will entail an expenditure of \$5,000,000, and that each round trip would cost from \$5,000,000 to \$7,000,000.

A SCANDAL IN ROME.

Rome, 8th January. The friction between the Vatican and the Italian Government is very great. It has been considerably increased by the discovery of the deposition of Duke Torlonia from his position as Mayor of Rome. Many explanations have been given of this most severe punishment for his simply paying the respects to the Pope's Cardinal Secretary. It now appears that the Duke had been found guilty of a crime which had led to the death of a woman. The Duke's wife is from Syracuse, where her reputation was such that when she came to Rome, even as the wife of a prominent Italian leader, she found the doors of the Roman aristocracy absolutely closed. The Duke's wife is from Syracuse, where her reputation was such that when she came to Rome, even as the wife of a prominent Italian leader, she found the doors of the Roman aristocracy absolutely closed.

A few weeks ago Mrs. Crispien was in the house of a foreign Ambassador and saw the Duchess of Salaparuta, a very beautiful and well-known. The Duchess expressed great interest in the Duke's removal, which no one believes would have been thought of if it had not been for Mrs. Crispien's desire for revenge.

THE POLITICAL SITUATION IN RUSSIA.

The National Zeitung says the belief that peace will be maintained is growing, but it is clear that an initiative toward a solution can proceed only from Russia. Vienna advises are opposed to peace predictions. Colonel Zulfitt, in the course of official communications to the Austrian military authorities, has expressed his opinion that the Russian Government has decided, in furtherance of the measures recently announced in the *Islandische Rundschau*, to move two more divisions of troops to the frontier. The Russian Government is regarded as the most serious of the combined seriousness of the position. The fact that Colonel Zulfitt is instructed to give notice is considered part of the diplomatic game which Russia is now unfolding.
